The Nintendo® 64 Controller

Control Stick Function

The Nintendo 64 Control Stick uses an analog system to read the angles and directions of its movement. This allows precision control that is not possible using the conventional + Control Pad.

When turning the Control Deck power ON, do not move the Control Stick from its neutral position on the controller.

If the Control Stick is held at an angled position (as shown in the picture on the left) when the power is turned ON, this position will be set as neutral. This will cause games using the Control Stick to operate incorrectly.

To reset the neutral position once the game has started, let go of the Control Stick so it can return to its center position (as shown in the picture on the left) then press START while holding down the L and R Buttons.

The Control Stick is a precision instrument, make sure not to spill liquids or place any foreign objects into it. If you need assistance, contact Nintendo Consumer Assistance at 1-800-255-3700 or your nearest Nintendo Authorized Repair Center.SM

Holding The Nintendo 64 Controller

While playing the F-Zero X game, we recommend you use the hand positions shown at the left. By holding the controller like this, you can operate the Control Stick freely with your left thumb. Using your right thumb, you can easily access the A, B or C Buttons. Place your left index finger on the Z Button on the back of the controller.

Connecting the Nintendo 64 Controller

Up to four players can play this game. Connect each player's controller to the appropriate controller socket on the front of the Control Deck. Beginning on the left, the sockets are for Player 1, Player 2, Player 3 and Player 4. You cannot start a game if the first controller socket is empty.

If you change the connection during the game, you will need to either press RESET or turn the power OFF to make the connection active.

You must use two, three or four controllers in order to play the two-, three-, or four-player game modes.

Rumble Pak™

The F-Zero X game is compatible with the Rumble Pak accessory. Before using it, make sure to read the Rumble Pak accessory instruction booklet carefully. Make sure that the Control Deck is OFF when inserting the Rumble Pak accessory.

F-ZERO

The F-Zero Grand Prix dates back to the 26th century. This grand race featured the most technological racing machines competing in several circuits (or cups) of fast-paced floating action. It was well known for its wild fans and eccentric competitors. Winners of the Grand Prix received large sums of money and a great deal of prestige.

Due to the large number of injured participants, the Grand Prix was canceled several years ago.

The History of F-ZERO

It is said that F-Zero derives from the old F-1 Race of the 20th and 21st centuries and the F-Max Grand Prix of the 24th century. Over the years, races became influenced by wealthy ex-space merchants. They thought that a fast and violent race would be a great way to get people to gamble, so the ex-merchants established the F-Zero Execution Project.

*F-Zero Machines

By using an opposing-gravity system called the "G-Diffuser System," these machines can drive at high speeds hovering just inches above ground. Using their ultra-compact plasma engines, their maximum speeds can exceed the speed of sound.

*F-Zero Circuits

Courses for F-Zero are set high above cities. Some cities have multiple circuits—circuits not used for the Grand Prix are open to pilots for practice.

*Excerpts taken from the Universal Encyclopedia.

F-ZERO X GRAND PRIX OPENING NOTIFICATION

Attention all F-Zero pilots:

As you know, due to the many accidents and dangers involved, the Grand Prix was discontinued for several years. Thanks to the support of many fans, the race will continue!

We have changed the competition's name to the F-ZERO X GP and have revised the rules and regulations. Here's to the return of a great competition! We wish you all success.

F-Zero X Execution Project

F-ZERO X

ARE YOU READY?

Getting Started

On each select screen, the START or A Button will always confirm your selections. Press the B Button to cancel and return to the previous screen.

Correctly insert the F-Zero X Game Pak into your Nintendo 64 system and move the POWER switch to the ON position. When the Title screen appears, press START to access the Main Menu.

Use the Control Stick to select the desired game mode.

TIME ATTACK

Race solo and go for the best time (p. 14)!

DEATH RACE

Try and put every other machine out of commission (p. 17)!

GP RACE

The main game (p. 7)!

PRACTICE

Practice racing any of the tracks in Grand Prix mode (p. 11).

OPTIONS

Set options for VS mode, sound and clearing saved data. (p. 18).

VS BATTLE

Two to four players can race against each other (p. 18).

GRAND PRIX RACE

Twenty-nine other contestants will race against you in this one-player circuit.

Select Class

Before jumping into the Grand Prix, you'll need to select a difficulty level: Novice, Standard or Expert. The higher the difficulty level, the tougher your opponents.

Select Course

Now you need to select a Cup (or circuit). There are three Cups to choose from, each consisting of six courses. Drivers with little experience might want to start with an easier Cup.

Nickname (a very brief description of the course)

MACHINE ABILITIES AND SETTINGS

This page is very important, so please read it thoroughly.

There are 30 machines in total, but you can only select the top six machines at first. Each machine has different abilities. Body, Boost and Grip are rated A - E (A being best and E being worst) and appear on the left side of the screen.

BODY Body deals with a machine's durability. A machine with a high durability rating will take less damage when crashing into other machines or guard rails.

BOOST If you select a machine with a high Boost rating, your speed will dramatically increase every time you use Boost (p. 10).

GRIP A higher Grip rating means your machine will hug curves (or curved surfaces) better.

MORE MACHINES

Every time you win a Cup, an "X" mark will appear on the Course Select screen. When you get three "X" marks, you will be able to select from the second row of machines. The third row of machines will become available when you receive six "X" marks and the fourth row when you receive nine.

? There are three classes with three Cups. That means you can get a total of nine "X" marks. But that only lets you select from 24 machines! Herein lies the mystery: Can you find a way to open up the final row of machines?

ENGINE SETTINGS

After selecting a machine, you can adjust the engine settings. Adjusting the settings customizes your machine. You can customize it towards acceleration or maximum speed. Press LEFT and RIGHT on the Control Stick to move the arrow.

Press the R or Z Button to change the color of the machine. Press the C Buttons to rotate your machine and get a better look.

ACCELERATION

It's great for the technical courses that have lots of corners. It's also great for quick starts and makes drifting easier. When you drive through the dart zone (p. 13), your speed won't decrease as easily. However, your Maximum Speed, Boost and Grip power will decrease.

MAXIMUM SPEED

Try customizing your machine this way for those high-speed courses with straight roads. Maximum Speed, Boost and Grip power increase slightly, but you won't get those quick starts, and drifting will be a problem.

Abilities and You

Each machine is unique, and its abilities depend on its size and weight.

	Accel.	Max. speed	Boost	Grip	Turning	Crashing into other machines
Light	Good	Slow	Strong	Good	Quick	Heavy machines will effect you
Heavy	Bad	Fast	Weak	Bad	Slow	Not a problem

SCREEN DISPLAY

For controller information, please see the attached Operation Card.

Energy Meter

As your machine takes damage, your energy meter gradually reduces. When the meter turns black, your machine will explode, and you'll RETIRE.

When you are on lap number two, the meter color will change from red to green. This means you'll be able to use Boost. You can use Boost as often as you want, but every time you use it, your energy will decrease. Recover energy in the Pit Area [p. 13].

Current lap Number of laps

Top Six

The top six driver pictures will appear here. If the order changes, the pictures will change as well.

Rival Check Mark

When a rival approaches, this mark will appear.

Spare Machine

Number of remaining machines [p. 13].

Lap time briefly appears each time you pass the finish line.

Number of Rivals You've Retired

When you retire a rival, you'll get a star. Each star will slightly replenish your energy meter. For every five stars, you'll receive an extra machine.

Blue square = Leader

Pause Screen

- **CONTINUE** Continue the race
- **RETRY** Restart the race from the beginning. You will lose one machine.
- **SETTINGS** You can readjust machine settings and retry. You will lose one spare machine.
- **QUIT** Quit and return to the Select Mode screen.

If you do not have a spare machine, **RETRY** and **SETTINGS** will not be available.

Time Difference

Each time you complete a lap, the time difference between you and the lead machine will appear in the center of the screen. If you are in the lead, the time difference between you and the second place machine will appear.

Press the L Button to make the time difference appear under TIME.

Rivals

For the second Cup race, and every race afterwards, a Rival Mark will appear on the first place machine (if you are in first place, it will appear on the second place machine). A successful cup run means you need to pay attention to the score. If your rival has a large point lead, you'll need to figure out a way to get him/her to retire.

PRACTICE

On the Select Mode screen, select **PRACTICE** and you can practice the GP (with rivals) in the Cup course of your choosing. After selecting the difficulty and Cup, choose the desired course by pressing **LEFT** and **RIGHT** on the Control Stick.

The same machines that are available in GP will be available in **PRACTICE**. While driving, you can pause the game and try a different machine and/or course. This is a good way to see which machines are good for which courses.

- There is no limit to the number of laps. Only the lap time will be displayed.
- You can use Boost at any time.

OFFICIAL RULES OF F-ZERO X

These are the official rules of the F-Zero X Grand Prix as established by the F-Zero X Execution Project. Adherence to these rules is mandatory for each pilot wishing to participate in the GP.

1: Standard Rules

- 1-1 To complete a Cup, you must finish all six courses.
- 1-2 Each course consists of three laps. Rank will be determined at the finish of the race.
- 1-3 Your start position will depend on your rank from the previous race. The closer you finish a race to first place, the further from start you will be in the next race. For example, if you finish 1st in the first race, you'll start 30th in the second race.
- 1-4 A driver who completes a course will receive points. These points will depend on where you finish. The driver with the most points at the end of the sixth course will be declared the winner.

Rank:	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23	24	25	26	27	28	29	30

Total Score and Rank

The red and blue triangles indicate movement in the overall rankings.

- 1-5 After all six courses are completed, if two or more pilots are in first place, the driver who placed first more often will be the winner. If there's still a problem deciding a winner, whoever has the highest total points after the 6 courses are completed will be the winner.

2: Retire

- 2-1 If a machine loses a race badly, falls off the course or if the Energy Meter is completely black, the pilot will be forced to RETIRE. Their machine will be totaled by the Execution Project.
- 2-2 If the pilot decides to RETRY or CHANGE SETTINGS during a race, it will be treated as a RETIRE and rule 2-1 will be enforced.

F-ZERO X

3: Spare Machines and Retrying

- 3-1 A pilot participating in a Cup will be allowed to have spare machines. Only when a pilot has a spare machine will he or she be allowed to RETIRE and retry a race.
- 3-2 In Novice Mode, a pilot will have five spare machines. Four will be available in Standard and three in Expert. One spare machine will be given to a pilot each time he or she retires five competitor machines.
- 3-3 If a pilot retires and has no spare machine, the game will be over.

4: Prohibited Action

- 4-1 Boost is prohibited during the first lap of every race.
- 4-2 If a pilot is driving the wrong way, the Execution Project will issue a REVERSE warning. The pilot MUST immediately change directions.

5: Establishments on the Course

- 5-1 Pilots have the right to replenish their Energy Meter in the Pit Area. The amount of energy recovered depends on how much time a pilot spends in the Pit Area.
- 5-2 The following course establishments are necessary for competition. Pilots may not dispute or disclaim their existence.

Dash-Plate
Speed will temporarily increase.

Trap
Your machine will jump in the air, and your Energy Meter will decrease.

Jump Plate
Your machine will jump in the air:

DEATH RACE

PZERO X

In Death Race, your goal is to take out 29 machines before they take you out! Run 'em off the road; make 'em crash; do whatever it takes to win!

- There is only one course and no difficulty level.
- Best times will be saved to memory.
- There is no limit to the number of laps, and you can hit road walls.

Remaining Number of Rival Machines

When the number of remaining machines is zero, the game is over.

BEST TIME

You'll get a star for each machine you actually destroyed. You won't get a star if a rival machine crashes into another.

Tips For a Good Record

- ★ Attack when the rival machines are crowded. You can destroy several machines at once this way.
- ★ Machines with higher speeds can damage others easier.
- ★ It's more advantageous to drive a heavier, tougher machine.
- ★ Make sure to check your rear view often!

VS BATTLE

In VS Battle, two to four players can play simultaneously — just make sure you have enough controllers. Course and machine selection are entered like other modes.

OPTION SETTINGS

Before starting a VS battle, make sure to set your options. Go to **OPTIONS** and change the desired settings with the Control Stick.

VS Computer (2P, 3P)

Select **WITH** and four machines will race in all multi-player modes (machines not used by players will be operated by the computer).

VS Slot

Select **WITH** and if you retire, you'll play a slot game that could provide an interesting surprise or two (more info on p. 20).

VS Handicap

Adjust the handicap of other players to make the race more exciting (more info on p. 20)!

Sound Mode

Select either **STEREO** or **MONAURAL** sound modes.

All Data Clear

Erase all saved data.

Exit

Return to the Select Mode screen.

THE VS BATTLE SCREEN

Player rank will appear in the lower left corner of each player's screen. In a three- or four-player game, press the **◀** Button to switch between lap display and course radar.

RANK

Like GP Race, this is a three-lap race. If two or more players retire, the player who retired first will have the lower rank.

POINTS

When the race is completed, points will be given according to rank. Point distribution differs depending on the number of machines in the race.

	2 machines	3 machines	4 machines
1st place	5 points	5 points	5 points
2nd place	0 points	3 points	3 points

TOTAL POINTS points to the right of the VS RESULTS table.

- If you select **WITH** for VS Computer (2P, 3P) in Options, the computer-controlled machine[s] will receive points.
- If you quit VS Mode and do not turn the Control Deck off, the total points will remain if you go back and play VS Mode.

SLOT GAME

Go to Options and select WITH for Vs. Slot. If you end up retiring before the other players, the slot machine will appear. Press the B Button to start the slots and the A Button to stop them. If you match three pictures, you can make another player's machine lose all or half of its energy (depending on which pictures you match).

If three "X" marks appear, the leading machine will lose all its energy.

HANDICAP

Adjusting the HANDICAP option (on the Options screen) will give the slower machine an advantage.

+1	Boost power will not consume as much energy.
+2	Boost power will consume even less energy.

WARRANTY AND SERVICE INFORMATION:

REV-J

You may need only simple instructions to correct a problem with our product. Call the Consumer Assistance Hotline at 1-800-255-3700 rather than going to your retailer. Hours of operation are 6 a.m. to 9 p.m., Pacific Time, Monday - Saturday, and 6 a.m. to 7 p.m., Pacific Time, on Sundays (time subject to change). If the problem cannot be solved over the telephone, you will be offered express factory service through Nintendo or referred to the nearest NINTENDO AUTHORIZED REPAIR CENTERSM. Please do not send any products to Nintendo without calling us first.

HARDWARE WARRANTY

Nintendo of America Inc. ("Nintendo") warrants to the original purchaser that the hardware product shall be free from defects in material and workmanship for twelve (12) months from the date of purchase. If a defect covered by this warranty occurs during this warranty period, Nintendo or a NINTENDO AUTHORIZED REPAIR CENTER will repair the defective hardware product or component, free of charge. The original purchaser is entitled to this warranty only if the date of purchase is registered at point of sale or the consumer can demonstrate, to Nintendo's satisfaction, that the product was purchased within the last 12 months.

GAME PAK & ACCESSORY WARRANTY

Nintendo warrants to the original purchaser that the product (Game Paks and accessories) shall be free from defects in material and workmanship for a period of three (3) months from the date of purchase. If a defect covered by this warranty occurs during this three (3) month warranty period, Nintendo or a NINTENDO AUTHORIZED REPAIR CENTER will repair the defective product, free of charge.

SERVICE AFTER EXPIRATION OF WARRANTY

Please call the Consumer Assistance Hotline at 1-800-255-3700 for trouble shooting assistance and/or referral to the nearest NINTENDO AUTHORIZED REPAIR CENTER. In some instances, it may be necessary for you to ship the complete product, FREIGHT PREPAID AND INSURED FOR LOSS OR DAMAGE, to the nearest service location. Please do not send any products to Nintendo without calling us first.

WARRANTY LIMITATIONS

THIS WARRANTY SHALL NOT APPLY IF THIS PRODUCT: (a) IS USED WITH PRODUCTS NOT SOLD OR LICENSED BY NINTENDO (INCLUDING, BUT NOT LIMITED TO, NON-LICENSED GAME ENHANCEMENT AND COPIER DEVICES, ADAPTERS, AND POWER SUPPLIES); (b) IS USED FOR COMMERCIAL PURPOSES (INCLUDING RENTAL); (c) IS MODIFIED OR TAMPERED WITH; (d) IS DAMAGED BY NEGLIGENCE, ACCIDENT, UNREASONABLE USE, OR BY OTHER CAUSES UNRELATED TO DEFECTIVE MATERIALS OR WORKMANSHIP; OR (e) HAS HAD THE SERIAL NUMBER ALTERED, DEFACTED OR REMOVED.

ANY APPLICABLE IMPLIED WARRANTIES, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS, FOR A PARTICULAR PURPOSE, ARE HEREBY LIMITED IN DURATION TO THE WARRANTY PERIODS DESCRIBED ABOVE (12 MONTHS OR 3 MONTHS, AS APPLICABLE). IN NO EVENT SHALL NINTENDO BE LIABLE FOR CONSEQUENTIAL OR INCIDENTAL DAMAGES RESULTING FROM THE BREACH OF ANY IMPLIED OR EXPRESS WARRANTIES. SOME STATES DO NOT ALLOW LIMITATIONS ON HOW LONG AN IMPLIED WARRANTY LASTS OR EXCLUSION OF CONSEQUENTIAL OR INCIDENTAL DAMAGES, SO THE ABOVE LIMITATIONS MAY NOT APPLY TO YOU.

This warranty gives you specific legal rights, and you may also have other rights which vary from state to state. Nintendo's address is as set forth on the back cover of this booklet.

This warranty is only valid in the United States.
